

2018-2019 SEASON OFFERINGS FLY IN AND FLY OUT OPTIONS

23 days. 14 days in Antarctica*.
\$13,900 – \$14,900 USD (depending on cabin)

TRIP 1 **Dec 16, 2018 – Jan 7, 2019**

DAY 1

Join our sailboat in Ushuaia, and sail the Beagle Channel heading for the Drake Passage.

DAY 2 TO 4

We will sail across the Drake Passage, leaving the Cape Horn on our starboard side.

DAY 5 TO 17

Explore Antarctica on an Expedition sailing yacht. Each day will be different and can include zodiac tours, landings at penguin colonies, exploring historic scientific bases and whaling sites, kayaking. The flexibility allows you to take full advantage of whatever Antarctica gives to us – be it an incredible southern sunset or a breaching whale. We can stop and enjoy.

While South there will be an Active scientist onboard, so all guests are invited to participate in real Antarctic research. In the evenings the scientist will present on their research, as well as pressing current Antarctic issues. The scientist will be a part of the team and ready to answer questions at dinner, or on deck!

DAY 18

We sail to King George Island and board your flight to Punta Arenas. Look out your window and get a last glimpse at the white continent.

Luckily your adventure doesn't end yet! Spend an included night in Punta Arenas and explore this historic city known both as stopover for famous Antarctic Explorers and the home base of old sheep barons.

DAY 18 & 19

Fly to Puerto Williams, Chile, a small naval outpost that can truly claim the title of southern most town. Stay two nights at the Lakutaia Lodge. Explore famed Navarino island and learn about the flora, fauna, and history of the native Yaghans. An excellent museum in town, as well as excellent half day and day hikes are easily accessed from the lodge.

DAY 20

Transfer to Ushuaia via boat and say goodbye to your fellow Antarctic Adventurers of the last two weeks and get ready to share your experiences and photos with friends and family back home.

***Actual amount of days in Antarctic could vary due to weather and/or logistics.**

What's included:

- 14 days of sailing expedition All Inclusive onboard the Expedition Yacht Ocean Tramp -including landings, zodiac cruises, hikes, kayaking, one night camping on shore, visit to Antarctic bases.
- Accommodation is a bunk/bed in private double cabin with share bathroom. Duvets, towel, linen and pillows are provided. Limited storage space for personal clothe in the cabin.
- All meals -while onboard: breakfast, tea and coffee mid-morning, lunch, tea and coffee midafternoon, happy hour, dinner. Wine or beers on dinners except if the boat is underway. While in the lodge/hotel: breakfast, lunch and dinner with drinks.
- Antarctic boots while onboard the Yacht.
- Flight from King George Island, South Shetlands, to Punta Arenas, Chile.
- 1 night in Punta Arenas (hotel to be confirmed, share room with your same roommate as onboard).

- Flight from Punta Arenas to Puerto Williams, including transfers.
- 2 nights all inclusive in Lakutaia Lodge. Share room with your same roommate as onboard.
- Transfer from Puerto Williams to Puerto Navarino and Ferry boat from Puerto Navarino to Ushuaia.

What's not included:

- Required Antarctic Medical Evacuation Insurance
- Personal gear/cloth minus boots (overboots will be provided onboard).
- Transfers from/to Airports unless specified.
- Anything not specifically mentioned on the “included” list.

***Actual dates, timings, etc may change due to weather, logistic issues or any other reason.**

14 days. 14 days in Antarctica*.
\$13,900 – \$14,900 USD (depending on cabin)

TRIP 2 **Jan 4, 2019 – Jan 20, 2019**

DAY 1

Meet our team at your hotel in Punta Arenas and have a ride to the airport, and fasten your seat belt, while enjoying crossing the Drake Passage in just a couple of hours, arriving at King George Island, on the Shetlands. Offload your bags and meet the crew of the sailing Expedition Yacht Ocean Tramp

DAY 2 TO 13

Explore Antarctica on an Expedition sailing yacht. each day will be different and can include zodiac tours, landings at penguin colonies, exploring historic scientific bases and whaling sites, kayaking. The flexibility allows you to take full advantage of whatever Antarctica gives to us – be it an incredible southern sunset or a breaching whale. We can stop and enjoy.

While South there will be an Active scientist onboard, so all guests are invited to participate in real Antarctic research. In the evenings, the scientist will present on their research, as well as pressing current Antarctic issues. The scientist will be a part of the team and ready to answer questions at dinner, or on deck!

DAY 14

Return to King George Island and board your flight to Punta Arenas. Look out your window and get a last glimpse at the white continent. Luckily your adventure doesn't end yet! Spend an included night in Punta Arenas and explore this historic city known both as stopover for famous Antarctic Explorers and the home base of old sheep barons.

DAY 15 & 16

Fly to Puerto Williams, Chile, a small naval outpost that can truly claim the title of southern most town. Stay two nights at the Lakutaia Lodge. Explore famed Navarion island and learn about the flora, fauna, and history of the native Yaghans. An excellent museum in town, as well as excellent half day and day hikes are easily accessed from the lodge.

DAY 17

Fly back to Punta Arenas over the spectacular Darwin Range – have your cameras ready as you fly over glaciers plunging into the Beagle Channel! Return to Punta Arenas and say goodbye to your fellow Antarctic Adventurers of the last two weeks and get ready to share your experiences and photos with friends and family back home.

What's included:

- Flights from/to Punta Arenas to King George Island, South Shetlands.
- 14 days of sailing expedition All Inclusive onboard the Expedition Yacht Ocean Tramp -including landings, zodiac cruises, hikes, kayaking, one night camping on shore, visit to Antarctic bases.
- Flights to/from Punta Arenas to Puerto Williams, including transfers.
- 2 nights at Lakutaia Lodge in Puerto Williams. Share room with your same roommate as onboard.
- 1 night in Punta Arenas (hotel to be confirmed, share room with your same roommate as onboard)
- Antarctic over boots for landings.

What's not included:

- Required Antarctic Medical Evacuation Insurance
- Personal gear/cloth minus boots (overboots INCLUDED).
- Transfers from/to Airports unless specified.
- Anything not specifically mentioned on the “included” list.

***Actual amount of days in Antarctic could vary due to weather and/or logistics.**

16 days. 13 days in Antarctica

\$13,900 –14,900 USD (Depending ending on cabin)

TRIP 3 **Jan 17, 2019 – Feb 1, 2019**

DAY 1

Meet our team at your hotel in Punta Arenas and get ready for the ride to the airport, board the plane and fasten your seat belt, while enjoying crossing the Drake Passage in just a couple of hours, arriving at King George Island, on the Shetlands.

Offload your bags and meet the crew of the sailing Expedition Yacht Ocean Tramp.

DAY 2 to 13

Explore Antarctica on an Expedition sailing yacht. each day will be different and can include zodiac tours, landings at penguin colonies, exploring historic scientific bases and whaling sites, kayaking. The flexibility allows you to take full advantage of whatever Antarctica gives to us – be it an incredible southern sunset or a breaching whale. We can stop and enjoy.

While South there will be an Active scientist onboard, so all guests are invited to participate in real Antarctic research. Rebecca Shaw reviewed Quixote Expeditions

-5 * star

March 8 at 4:14pm

We had one of the most amazing adventures of our lives aboard Ocean Tramp during the last two weeks of January. And we have had some amazing adventures previously. We are still marveling at how wonderful it was. Laura and Fede are knowledgeable, accomplished, amazing and lots of fun! They make an absolutely first rate team running a top notch operation: this is THE experience you want to have in the Antarctica. As sailors, ourselves, we have been saying it was almost as good as being on our own boat. In fact, it was much better. The responsibility was in the very capable hands of Fede and Laura! And it was more comfortable.

The magnificent, vast wilderness was ours to explore on our own timetable. When we came ashore to study the geology, the penguins, the seals, or to hike and/or climb mountains, we could stay as long as we wanted. We diverted course to chase whale and seal sightings. We met interesting people too: a single handed sailor who had just arrived in our

harbor after 60 days at sea from NZ. Fede invited him for dinner. We visited, toured and drank homemade vodka at the Ukrainian research base; entertained the women who run the southernmost Post Office in the world at Port Lockroy. Unlike a larger boat, plans are always flexible, of course, for weather but also, for whatever interesting comes up, and something interesting came up every day!

The range of activities was also accommodating to young and old. We had the option to snorkel (yes!), kayak, camp overnight on the ice, and hike as much as we wanted. We also had the option to sit for hours and observe the penguin babies in the many rookeries we visited!

Laura has gathered a very good library on the Antarctic and the presentations by our scientist were terrific and he was always available to answer the many questions that came up as we explored and experienced the Antarctic.

FAQ

IS THIS EXPEDITIONS FOR ME?

Sailing to remote areas means that we are away from everything! That also means that if we need medical assistance it can be days away. It also means that we have no access to emails, phone, facebook, etc, for the duration of the trip.

Sailing on an Expedition Yacht means that the cabins and common places are small and we all the crew and passengers share pretty much everything. It can be considered as an Adventure in its true meaning!

AM I IN GOOD SHAPE FOR PARTICIPATING ON THESE EXPEDITIONS?

If your answer to the questions below are YES, then yes! You are fit to join us! Any questions, Please ask us!!

- Can you stay without external medical assistance for the duration of the expedition? -it could be up to 20 days.
- Can you swim or float?
- Do you have good balance: Can you stay standing on a bus/metro/train with little to minimum holding in normal conditions?
- Can you embark/disembark from a zodiac to a beach with little swell?
- Can you walk 10 blocks without getting exhausted?
- Can you climb a 6ft / 2m vertical ladder?
- Are you aware that you are going to a remote area, with no phone/email/contact/etc with external people/family/etc for the length of your trip? (note: we have a satellite phone and we can send out facebook updates to family and friends, although the Sat phone is only for Weather download and any emergency).

You can also watch our extended Youtube library in order to better understand what you can expect when sailing with us -here is the link to our

Youtube channel, or search on YouTube for Quixote Expeditions.

I'M NOT A SAILOR – IS THAT OK?

YES! Please join us. Anyone with a sense of adventure and a desire to spend quality time in Antarctica will find our trips enjoyable. We teach you everything you need to know. Sailors and non-sailors alike both have incredible experiences.

I'M A PHOTOGRAPHER – IS THIS TRIP FOR ME?

This is a great trip for photographers, especially those looking to get the perfect shot. Our size offers us incredible flexibility. We can help you get some great shots and we can take advantage of the weather and the light!

HOW WILL I KNOW WHAT TO BRING?

Don't worry – we will send you a list of gear you will need. If you have winter clothes, most of it you will already have. A must have are some Arctic Muck boots – insulated rubber boots. They are amazing.

WHAT ARE THE CABINS LIKE?

Our cabins are some of the most comfortable available for sailboats. We have private double cabins, and even one with a private bathroom. Each cabin has a door that can be closed, they are fitted with warm and cozy duvets and storage space for your things. A luxury suite it is not, however each cabin gives you a place to call your own for the duration of the journey.

HOW WILL WE EXPLORE ANTARCTICA?

When we are in Antarctica Ocean Tramp will act like a base camp. Some days we will travel other days we will stay put. Once we are anchored we will launch the zodiac to explore. Sometimes we

will cruise around the in the zodiac exploring the area, other times we will use the zodiac to bring us to shore. Sometime on shore we will be able to freely move around, explore and hike, other times we may be limited due to the wildlife and limiting our impact on them. We also bring kayaks and can use them to explore at eye level.

WHAT SORT OF FOOD DO WE EAT?

On-board you will eat hearty well-made delicious home cooked food. Lunch is often warm and hearty soups and stews, while dinners can be a variety of meals. Meals range from a Sunday roast to Saturday night Captain Pizza night, to goulash to Pad thai to butter chicken. So far everyone has left a bit heavier than when they arrived. We also always have snacks available during the day and water ready for coffee or tea. If you do have any special snacks or teas that you can't live without, we recommend bringing some with you.

WILL I GET SEASICK?

Everyone is a little different, but we highly recommend bringing some seasickness pills with you. We generally take them as a precautionary measure when crossing the Drake. Once in Antarctic things will be a calmer and most of our days will be anchored and exploring on shore. At the very least – you may have a good story to tell when you get home of your Drake Crossing.

IS IT DANGEROUS TO GO TO ANTARCTICA IN A YACHT?

Yachts in the Antarctic Peninsula have a very good track record. This is due to vessels taking a very high regard to safety. Safety is a core element of our business. Every decision we make is based on a risk analysis. Crossing the Drake could indeed be dangerous. Sailing in Antarctica could be dangerous. Then again crossing the street could also be dangerous – cars whiz by at

60 miles an hour. However just like you taking precautions when crossing the street, we take extreme cautions when sailing. We continuously watch the weather, we are a surveyed vessel, which means we MUST comply with all safety regulations. We have strict requirements for lifejacket use.

That being said, each person onboard must also use good judgement. If you follow what the Captain says you will be in good hands.

WHAT IS INCLUDED?

Once you are onboard everything is included – port fees, meals, wine with meals. We also provide your basic safety equipment including life jackets.

What is not included – flights to/from your home to Punta Arenas/Ushuaia, airport transfers, and REQUIRED evacuation insurance. Accommodation before and after the trip is not included.

DO I NEED TO FILL OUT A MEDICAL FORM?

Yes. The places we go are quite remote and while what we do is safe, it does require some physical activity. Once you sign up for a trip we will require you to give us a medical form that is signed by a doctor.

WILL WE HAVE INTERNET ONBOARD?

One of the wonderful aspects of this trip is it allows you to unplug and get away from emails, phone calls, etc. We do have a connection to the internet via our satellite phone. We use this for weather updates, email to update our position, emergencies, and facebook and blog updates. We encourage everyone to tell their friends and families to subscribe to our blog and like us on facebook. Then they can get updates while you are here with us. Our guests and their families have appreciated these “news” updates in the past. They can also follow our track on a google

map in our website, as we have a tracking system that plots our position every few hours.

IS ALCOHOL ALLOWED ONBOARD?

Alcohol consumption is at the discretion of the captain. If we are underway sailing then we do not drink, as it is not in the interest of safety for crew and guests. If we are comfortably in a cove for the night then indeed, we all enjoy a nice glass of Argentine wine with our meal.

Inebriation will not be tolerated onboard and the Captain has the right to cancel a trip should guests not adhere to this policy.

I HAVE SEEN OTHER YACHTS FOR CHEAPER:

Correct - we are not the cheapest. The short answer is “you get what you paid for”! We pride ourselves on being one of the most professional small vessels operators. Our vessels have full

insurance for the transportation of passengers and they are certified by its flag to operate commercially. Our crew is also certified for crewing commercial vessels. We have all required safety gear and we fly down an inspector from the USA (to Ushuaia) to check and certify it. Our boats are maintained to a high standard and we conduct a good amount of Preventive Maintenance -this is replacing parts before they break. All the above is expensive, very expensive! But we know you are looking for the experience of a life time and the last thing we want is a broken part to ruin or end an expedition of our clients. Our goal is to do our best for not waste your time and money and deliver the best Antarctic Experience you can get! We believe the investment on our side (and on yours) leads to a much safer and ultimately better experience in Antarctica!
